Table 1: **Effect of Attending an Elite Institution on**

	Called Back
Elite School Candidate	.14*** (.032)
Observations	864
R^2	0.021

Notes: This table contains a regression showing how attending an elite institution (1 or 0) affects whether a job candidate was called back. Standard OLS standard errors are reported.

Attending an elite college institution is associated with a higher likelihood of being called back for a job application.
